Personal Development and Employability Skills

August 2019

Purpose of this document

The Qualification Specification is designed to give centres information so that they can offer the Personal Development and Employability Skills qualifications to their learners. It contains the information to ensure learners complete the correct number of units and in the correct combination to meet the qualification structures and the rules of combination required.

This document must be read in conjunction with the following documents to ensure centres and learners have all the information about how to achieve these qualifications.

Qualification Support Pack 00 – Centre Handbook

This handbook explains the administration processes that support qualification delivery, for example how to become an Approved Centre, what access arrangements Prince's Trust Qualifications (PTQ) has for learners with special requirements, what level of service you can expect from ourselves and what systems and sanctions PTQ uses should malpractice or maladministration be suspected.

This handbook also outlines the roles and responsibilities expected of an Assessor and Internal Quality Assurer within a centre, and provides competency profiles for each role.

Qualification Support Pack 01 – Building a Portfolio

This handbook is a good practice guide to building a portfolio and is intended to support centres when designing assessment activities and supporting portfolio evidence formats. It gives examples of common issues and practical steps to overcome them.

The examples used are not all specific to the Personal Development and Employability Skills qualification but the principles explained still apply.

Qualification Support Pack 02 – Internal Quality Assurance

This handbook describes the different internal quality assurance activities that may be undertaken within centres and gives good practice examples which centres can use to support their own practice.

Qualification Support Pack 03 – Making Claims and Results

This handbook explains the administration processes when making a claim for units or qualifications, issuing of certificates, the resubmission process as well as the Appeals Procedure. PTQ's assessment strategy can also be found in this handbook as well as information outlining the retention of evidence requirements.

All these handbooks can be found on our Qualifications webpage (www.princes-trust.org.uk/qualifications) by clicking on the country where the qualification will be delivered and then following the link to '[Guidance for Centres](#)' or by following the hyperlink above.

In 40 years The Prince's Trust has worked with over 825,000 young people giving practical and financial support to develop key work skills helping them move into employment, education and training.

The Prince's Trust is recognised by the qualification regulators in England, Wales, Northern Ireland and Scotland to develop, offer and award qualifications.

Qualification Structures

Award Qualification Structure

The rules of combination detailed below need to be met before Prince's Trust Qualifications can award any of the Award sized qualifications.

Minimum number of units to be achieved	2
Minimum number of credits to be achieved	6
Maximum number of credits to be achieved	18

The qualification will be awarded at the level at which the majority of credits have been achieved.

Barred combination – 'Participating in Exercise' and 'Preparing for a Healthy Lifestyle' units cannot be claimed as the only two units for an Award. If these two units are being claimed a third unit must be claimed as well in order to meet the overall requirements of the qualification.

If Awards are being claimed with the minimum number of credits, all six credits must be at the same level for the qualification to be awarded.

Certificate Qualification Structure

The rules of combination detailed below need to be met before Prince's Trust Qualifications can award any of the Certificate sized qualifications.

Minimum number of credits to be achieved	21
Maximum number of credits to be achieved	36

The qualification will be awarded at the level at which the majority of credits have been achieved.

Diploma Qualification Structure

The rules of combination detailed below need to be met before Prince's Trust Qualifications can award any of the Diploma sized qualifications.

Minimum number of credits to be achieved	39
Maximum number of credits to be achieved	57

The qualification will be awarded at the level at which the majority of credits have been achieved.

In recognition of the fact that some learners can achieve different levels for different units, PTQ operate on the basis that learners can achieve units within the same qualification at one level above or one level below the level of the overall qualification claimed. For further guidance please see Appendix 4.

Appendix 2 provides the level descriptors for the three levels covered by the units and qualifications.

Rules of Combination

When meeting rules of combination, learners do not have to achieve units in any particular order and Assessors should tailor learning programmes to meet individual learner needs. It is recommended that, wherever possible, centres adopt a holistic approach to the delivery of these qualifications and identify opportunities to link the units and levels.

Learners not able to complete a full qualification can have their achievements recognised through unit only certification.

Barred Combinations

Learners undertaking the same units at different levels will have the higher level unit awarded for a qualification. Units with the same or similar titles cannot both be counted towards the same qualification.

'Participating in Exercise' and 'Preparing for a Healthy Lifestyle' units cannot be claimed as the only two units for an Award. If these two units are being claimed a third unit must be claimed as well to meet the overall requirements for the qualification.

If you are unsure about the rules of combination for a qualification please contact Prince's Trust Qualifications to discuss.

Progression

These qualifications provide a platform for learners to progress onto further education opportunities and/or employment, as they develop personal development and employability skills.

Language

If you wish to offer these qualifications in Welsh please contact The Prince's Trust Qualifications.

Access Arrangements

More detailed information about the Special Consideration and Reasonable Adjustments policies for these qualifications is provided in the Centre Handbook (QSP 00)

Assessment of Qualifications

Grading

The Personal Development and Employability Skills qualifications are 100% centre assessed using portfolios of evidence and are graded as pass or fail. The portfolios are internally assessed and externally moderated.

The assessment process is as follows:

- Activities are internally set by the centre to meet the requirements detailed in the unit assessment criteria
- The learners are assessed internally at the centre by an Assessor whilst they engage in activities
- The learner's evidence is collated into a portfolio, which is referenced using a unit Tracking Sheet
- The centre undertakes internal quality assurance activities which includes sampling portfolios assessed by each Assessor.
- A further sample of portfolios is then externally moderated by Prince's Trust Qualifications

With these qualifications the best practice approach is to assess by 'continuous assessment'. This means that the learner is assessed throughout their programme of study, allowing for alternative activities to be set and further evidence produced while there are still opportunities during the programme. Continuous assessment keeps learners motivated and engaged as it provides the learner with opportunities to discuss progress, check they are working at the correct level for their ability and producing sufficient evidence. This open dialogue with the learner should be recorded on their portfolio, directly on their work and on the Tracking Sheet in the form of assessor feedback. The writing of comments on learners' work, and Tracking Sheets, provides a means of communication between staff during the internal quality assurance and with the External Moderator if the work forms part of the moderation sample.

More detailed information about the assessment strategies for these qualifications is provided in the Centre Handbook (QSP 00) and Making Claims and Results Handbook (QSP 03), both are available on our website [Guidance for centres](#)

Evidence

To achieve the units and qualifications learners need to gather evidence from activities which demonstrate they have met each of the assessment criteria. Some evidence of a learner's performance will also be derived from observation records and testimonies from witnesses, who observe the learner carrying out activities. Evidence can be in a variety of forms and can be varied according to learners' interests and needs.

Through completion of activities on the learning programme, the learners should generate evidence to demonstrate they have completed all of the assessment criteria sufficiently.

More detailed information is provided in the Building a Portfolio handbook (QSP 01) which is available on our website [Guidance for centres](#)

Recording Achievement

When learners have gathered their evidence, Tracking Sheets are used to record which piece(s) of evidence meets each assessment criteria. Learners are likely to collect far more evidence than they need and it is therefore important that the Tracking Sheets are only used to record the specific evidence needed to meet the criteria and not every piece of work produced.

The Tracking Sheets must be signed and dated by the learner and the Assessor. By signing the Tracking Sheets the learner and Assessor are declaring that the portfolio submitted is the learner's own work. The qualification will not be awarded without a signed declaration.

The Trust does not require every piece of evidence to be signed and dated.

Tracking Sheets for this qualification can be downloaded from our [website](#).

Making claims

Centres should only claim units and qualifications for learners when they are satisfied that their portfolio meets all the assessment criteria and the work has undergone internal quality assurance. Making claims is the official stage of notifying Prince's Trust Qualifications that the learners are being submitted for external moderation.

There will be regular opportunities to submit learners' portfolios throughout the year. Please check the qualification web page for the latest dates: [Prince's Trust Qualifications](#)

Staff requirements

To adhere to The Prince's Trust quality assurance arrangements for these qualifications, the centre must ensure that the following roles and responsibilities have been undertaken:

- Assessors
- Internal Quality Assurer (IQA)

The same person must never complete the internal quality assurance processes on portfolios they have assessed. More detailed information for the Assessor and Internal Quality Assurers roles, with competency profiles, is provided in the Centre Handbook (QSP 00) available on our website [Guidance for centres](#)

Career Planning

The aim of this unit is to give the learner an understanding of the job search, application and interview process in order to equip them with the skills necessary to progress onto a sustainable job/training opportunity that is suited to their interests. It is an opportunity for learners to think about careers they may wish to pursue, and reflect upon the training, education and experience required in that profession.

With the high demand for jobs, learners need to be aware of where to search for suitable jobs and how to best present themselves both, using their CVs or applications, and in person when they get to the interview.

Level Descriptors

The Regulated Qualification Framework (RQF) incorporates levels from Entry 1 through to Level 8. For the purposes of this document only the levels at which these qualifications are offered at have been included below.

The descriptors set out the generic knowledge and skills associated with the typical holder of a qualification at that level. The level descriptors are framed as outcomes and each category starts with a stem statement (“the holder can...”) which then links into the outcomes associated with each level of the framework.

Centre staff and learners can use the descriptors to understand more about the difference between and relative demand of the units and qualifications offered by PTQ.

Level	Knowledge descriptor (the holder)	Skills descriptor (the holder can...)
Entry 3	Has basic knowledge and understanding to carry out structured tasks and activities in familiar contexts; and Knows and understands the steps needed to complete structured tasks and activities in familiar contexts. Appendix 3

Qualification Structure Examples

A qualification will be awarded at the level at which the majority of credits have been achieved.

The examples below detail situations where a learner has passed different units and highlights the qualification (size and level) that they can then claim for.

Example 1

A learner achieves the following:

Total credits achieved	6
Number of credits at L1	6
Number of units	1
Qualification that can be claimed	None
Explanation	A minimum of 2 units must be achieved for the Award; if a 6 credit unit is achieved, a further unit must be achieved in order to gain the Award.

Example 2

A learner achieves the following:

Total credits achieved	6
Number of credits at L1	3
Number of credits at L2	3
Qualification that can be claimed	None
Explanation	The learner has not achieved a majority of credits at any given level. All 6 credits must be completed at a single level to gain an Award.

Example 3

A learner achieves the following:

Total credits achieved	9
Number of credits at L1	6
Number of credits at L2	3
Qualification that can be claimed	Level 1 Award
Explanation	The learner has achieved over 51% of credits at Level 1; the qualification is therefore awarded at this level.

Example 4

A learner achieves the following:

Total credits achieved	24
Number of credits at E3	15
Number of credits at L1	9
Qualification that can be claimed	Entry Level 3 Certificate
Explanation	The learner has achieved over 51% of credits at Entry Level 3; the qualification is therefore awarded at this level.

Example 5

A learner achieves the following:

Total credits achieved	36
Number of credits at E3	3
Number of credits at L1	15
Number of credits at L2	18
Qualification that can be claimed	Level 2 Certificate
Explanation	<p>The Entry 3 credits will not count towards the Certificate as they are two levels below the qualification; however a Level 2 Certificate with 33 credits is awarded.</p> <p>The learner has achieved over 51% of credits at Level 2; the qualification is therefore awarded at this level. A single unit certificate can be awarded for the Entry 3 unit so that the learner's achievement is still formally recognised and recorded.</p>
